Lost at Sea.

St. Johns, Newfoundland, June 10.—
The schooner Six Brothers was lost at
Buccadieu and the captain and thirteen
men were drowned.

The steamship Plover reports rescuing
forty-five of a sailing crew of the ice
stranded brig Confederate. Could not
save the remaining thirty, but was forced
to retreat on account of the ice. The
ship approached within twelve miles of
the Confederate. There were no pro-
visions on board and the crew were
suffering fearfully.

Washington Notes.

WASHINGTON, June 10.—The confer-
ence on the postoffice appropriation bill
resulted in a disagreement upon the
proposition regulating the compensation
of railroads and those relating to letter
carriers and postal clerks. The embar-
rassing differences were adjusted.

The house conference succeeded to the
senate amendments in all the more im-
portant features.

Charles D. Coleman, an attorney of
Plymouth, Mich., in his testimony be-
fore the committee on investigation of
the star route cases, said that William A.
Cook, one of the government counsel in
the prosecution, accepted several hun-
dred dollars to prevent the indictment of
Dr. Colgrove, a star route contractor. Dr.
Colgrove, the witness said, was inter-
ested in a number of routes and was
innocent of any fraudulent action, but
preferred paying out money to prevent
indictment, rather than to have the no-
toriety which would have ensued if the
bill had been found. The negotiations,
Coleman said, were conducted through
Cole, a partner of Cook. The witness
continued: "I went to Cole and confer-
red with him upon the subject. He told
me he thought the world of Dr. Colgrove
and I saw him go from the room in
which we were, into the adjoining
room and have a conference with Cook.
He came back and informed me he would
be able to help the doctor, and he would
want in the first place \$500; but he after-
wards got, I believe, \$750. Cole told me
he got the money, and he also told me
he divided with Cook."

"Was it at the time when Cook was in
the government service?" asked Spring-
er.

"Yes, sir. It was during President
Garfield's sickness at Elberon."

Congressional.

WASHINGTON, June 10.—In the house,
on motion of the chairman the com-
mittee on ways and means reported a
concurrent resolution, providing for the
final adjournment of congress on Mon-
day, June 30, at 3 p. m. Adopted with-
out division.

Payson, of the committee on public
lands, reported a bill for forfeiting a por-
tion of certain lands granted by Iowa for
the construction of railroads in that state.
Placed on the house calendar.

The consideration of the special order,
being the bill for the forfeiture of the
New Orleans, Baton Rouge and Vicks-
burg land grant, was postponed until to-
morrow and the house went into a com-
mittee of the whole, with Wellborn in
the chair, on the river and harbor bill.

Ochiltree moved to strike out the
clause appropriating \$250,000 for con-
tinuing the improvement of Galveston
harbor. The Texas people, he said,
thought the plan of the government en-
gineers for improving the harbor was
radically wrong, and favored Ed's plan.

In the last twelve years more than \$1-
500,000 had been absolutely wasted un-
der the present plan in the attempt to
deepen the water on the outer bar at
Galveston. For the last twelve years
the people of that city have been en-
tertained with tropical fertility, promises
and Sahara sterility. The motion to strike out was
agreed to.

Bedford offered an amendment, appro-
priating \$200,000 for the construction of
a canal from Fort Collins to Platte river,
Colorado. It was ruled out on a point
of order.

low. At one time Perch was a well

ergy, from Wallenburg, Ontario, to De-
troit, towing barges, foundered on Lake
St. Clair last night. The crew were

Slept Over the Falls.

CHICAGO, June 10.—At Helena, Mon-
tana, last Sunday afternoon, while the
ferry boat at Thompson's falls was cross-
ing the river, the cable broke and the
boat went over the falls, 300 yards be-
low. The boat had on eleven men bound
for the Coeur d'Alene mines and thirteen
pack horses, each carrying 300 pounds
of supplies for Eagle City. The current
was very swift and powerful. As soon
as the cable broke all the passengers
except two immediately jumped
overboard and struggled vainly to reach
the shore, but were swept over the falls.
The boat righted after going over the
brink and lodged against Belknap bridge,
a short distance below where the two
passengers, who still clung to it, were
rescued. Two men on the shore took a
skiff and tried to effect the rescue of the
others who had jumped into the water,
but were also swept over the falls. Of
the thirteen men concerned eleven were
lost. All were strangers going to the
mines, and their names are not known.
All the pack mules were drowned.

Harper's Weekly on the Situation.

NEW YORK, June 10.—The *Evening
Post* last evening contained the following:
"Various statements having been made
as to the probable course of *Harper's
Weekly* in regard to the nomi-
nation of Blaine and Logan,
a reporter of the *Post* to-day visited the
publishing house of Harper & Bros. in
order to obtain, if possible, an author-
ized announcement on the subject. In
reply to his inquiry a representative of
the house made the statement by
authority that *Harper's Weekly* will
oppose the Chicago nominations; that a
decision to this effect was reached by
the members of the house unanimously,
and that the pen of Mr. George William
Curtis and the pencil of Mr. Thomas
Niet will be exerted in support of this

In Allen county, where a nominal election is looked upon as equivalent to an actual one, there should be no mistake made in selecting the men for the different positions. The fight must be made at the time and not after the work has been done and a ticket sent out stamped with the seal and endorsed by a democratic convention. This is not the year for the opening of party strife and for the election of factions. They must all be here and the only way to do this is in this convention when the choice must be made. berries seen in Fort Wayne this season
were exhibited at Noll's drug store last
evening by Mr. Daniel Nestle. The
berries are from Mr. Nestle's suburban
farm in South Wayne, and will be for-
warded to the Detroit exhibition, where
a premium certainly awaits them.

The republicans met last night in a
room on West Berry street to organize a
"Plumed Knight" club. There were not
enough people present to effect an or-
ganization and H. C. Eastwood, G. A.
Fry and C. A. Miller were appointed a
recruiting committee to chase up mem-
bers. The organization will be on the
principle of the Jeffersonian club, for
young and old, a scheme ridiculed by
the Gazette considerably.

Robert Stratton, counsel for Richards,
the burly Adams county murderer con-
fined in jail here, received a telegram
yesterday from Decatur stating that
Judge J. R. Bobo had granted a change
of venue to this county in the Richards
case. Richards will accordingly be tried
before Judge Hench, and prosecuted by
C. M. Dawson, who never lets a guilty
man escape. Charles Wurst will have
his trial at Decatur in September. Both
are accused of complicity in the murder
of Amos Backenstowe.

men were old soldiers and were selected
to manage the gun on that account. Mr.
Hackett having been a member of the
celebrated Fifth Indiana battery, the
company that killed the rebel General
Polk at Pine Mountain, and a battery of
which General Sherman is reported to
have said was the finest one in the ser-
vice.

from St. Louis where he was called to
preach last Sunday, the occasion being
the laying of the corner stone of the new
Catholic church of St. Francis Xavier,
at the corner of Grand and Lindell av-
enues. The ceremonies were quite im-
posing and performed in the presence of
an immense throng of people, there
being fully 30,000 persons assembled to
witness the event. The corner stone was
laid by the Most Rev. Patrick J. Ryan,
archbishop of St. Salamis, at present con-
sultor to Archbishop Rourick, of St.
Louis, assisted by Thomas Walsh, archi-
tect, and others, and addresses were
made by Rt. Rev. Bishop Dwenger, of

REASON DETHRONED.

Henry Buhman, the Eccentric Nation
Peddler, Adjudged Insane—Mrs.
Sophia Ross of Unsound
Mind—Eccentricity
of the Cases.

This afternoon Justices France and
Zollinger met as a commission in lunacy
and adjudged Henry Buhman of un-
sound mind. Buhman is the eccentric
dealer in notions and rubber goods, who
occupied a room in Seidel's block, where
he had stored a huge quantity of buttons,
combs, cheap jewelry and rubber goods.
His custom was to sell these articles to
local dealers, but of late he acted queer
and paid little attention to business.
This, of course, led his creditors to levy
on his stock and Sheriff Scheiter has
been selling it for a week past. About
\$700 will be realized from the sale, or
just sufficient to pay his creditors dol-
lar for dollar, leaving Buhman without a
penny. This fact completely dethroned
the poor fellow's reason and he paced up
and down the sheriff's office this morning
like a Roman sentry. Buhman is a
small man, with full beard and bushy
hair. He came here from Germany and
had no friends. The fellow is known to
be eccentric and rarely sleeps. He is
about at all hours of the night and never
speaks to people who salute him.

This morning Esquires France and
Ryan examined Mrs. Sophia Ross, wife
of Henry Ross, who resides at the corner
of Walton avenue and Washington
streets. Her husband is well known and
quite well off. Mrs. Ross has four chil-
dren and it is believed a course of treat-
ment at the insane hospital will remedy
her mental trouble.

TIGHTENING THE NOOSE.

The Celebrated Butler Murder Trial Draw-
ing to a Close—The Arguments to
the Jury in Progress Now.

The trial of Charley Butler, for the
murder of his wife, Abbie Butler, at
Pierceston, is nearing its end, and the
noose seems to be tightening about the
prisoner's neck. The hearing of evi-
dence ceased yesterday morning and at 1
o'clock yesterday afternoon William F.
McNagay opened the argument for the
state. He will be followed by Gen. Tom
Powell for the defense. The Columbia
City Daily Post says that "one thing is
sure, the trial has developed the fact
that Butler is not a fit person to mingle
with the world. His proper place is in
an insane asylum, a prison, or his grave,"
and adds that "the history of the case is
so fresh in the minds of the people as
well as the evidence that they fully com-
prehend the situation. The evidence of
violence and an outburst of mob law
at one time so threatening, has, we be-
lieve, all subsided and the popu-
lace has settled down to sober
reason and is content to let the law and
jury assert themselves and control the
case. The arguments will be nine hours
in length on each side and of course
there will be short sessions, closing the
case perhaps on Thursday. They will
all be choice efforts, full of analysis and
logic, flowered with oratory and compar-
atively few persons can get near enough
to hear and they will secure their seats
early and hold them without regard to
regular meals. Mr. McNagay opens on
behalf of the state and either Royce or
Sickafosse will close.

THE WABASH.

Master Mechanic Barnes Brings Glad Tid-
ings to the Employes Here—Interes-
ting Gossip About the Future
of the Road.

Master Mechanic Barnes returned yester-
day from a tour of inspection west and
a consultation with leading officials of
the Wabash. He assures the employes
here that the paymaster will come in to-
morrow to settle the April pay roll. It
is also the purpose of the present man-
agers of the road to clear up all indebted-
ness of the great corporation inside of
six months. Business is picking up on
all branches of the Wabash and all en-
gines in the shops are hurried out for
service. Four locomotives were sent from
this city yesterday to the Cairo division
where freight is coming faster than it
can be transported. Mr. Barnes be-
lieves that non-paying branches of the
system will be dropped and only the
lines paying expenses maintained.
When this is accomplished it is probable
Jny Gould will again assume control of
the Wabash and stimulate the corpora-
tion to renewed activity.

"Having been in the drug business for thirty years," writes W. C. Field, pharmacist, of 1232 Cedar Avenue, Cleveland, "I have had an opportunity to learn the merits of rheumatic medicines, regular and irregular, and I have tried about everything and suffered everything, and nothing did me any good until I took Atliophoros. Then I said I have found it, and will recommend it to any one suffering with rheumatism or neuralgia. It cannot be recommended too highly."

M. J. Zollinger, engineer of the water works, yesterday received a letter from the Holly Manufacturing Co., of Lockport, N. Y., stating that the Fort Wayne engine during the year 1883 made the best record of any engine of the same pattern ever made by them.

Ho for the Country.

At this season of the year when people are beginning to think of relaxation from the trying labors of the past year, and "take themselves" to the country, mountain or seashore, there is one thing they should not forget and that is to provide themselves with a supply of Pond's Extract. In very many cases accidents will happen, sudden attacks of sickness will occur, wounds, bruises, sprains, etc., will be received, and for such Pond's Extract is the one great recognized specific. In cases of diarrhoea and colic it is also of great service.

The common council meets to-night in regular session. The work is important.

A Delicate and Wholesome Aroma.
Agreeably unlike the rank perfume of an ordinary essence, is perceptible to those who inhale the odor of SOZO-DONT, a chemically pure botanic adjunct of the toilet, which finds the greatest favor in those refined circles where personal comeliness and the graces which elevate the tone of society are held in dearest esteem. Besides arresting the decay of neglected or abused teeth and removing tartar and other impurities which causes them to become dim and lustrous it purifies the breath and remedies canker in the mouth.

A Remedy for Lung Diseases.

Dr. Robert Newton, late president of the Electric college, of the city of New York, and formerly of Cincinnati, Ohio, used Dr. Wm. Hall's Balsam very extensively in his practice, as many of his patients, now living, and restored to health by the use of this invaluable medicine, can amply testify. He always said that so good a remedy ought to be prescribed freely by every physician as a sovereign remedy in all cases of lung diseases. It cures consumption, and has no equal for all pectoral complaints.

A CARD FROM H. G. OLDS.

FORT WAYNE, June 10.

To the Editor of THE SENTINEL:

It has been the opinion of a large number of our citizens that the public school board has for years been a close corporation, and not managed in accordance with the principles of popular form of government where the people are presumed to rule. They have kept a fund on hand of from sixty to one hundred thousand dollars, never, I am informed from good authority, being less than first annual sum. And still they have the hardihood to ask an additional tax from the city council. My being announced as a candidate against Mr. Morgan, has made him promise, through THE SENTINEL, not to ask for this additional tax from the city; and as this much good has been accomplished, I have concluded to withdraw from the contest, and I take this opportunity to thank my many councilmanic friends for their promises of support.

Other reforms are necessary and will be demanded of this school board. Our taxes are high enough now; and while I wish to be recorded as being in favor of a liberal expenditure for the maintenance and extension of our schools to meet the growing demand upon them, I am decidedly opposed to being taxed to increase and keep larger sums than are necessary in the treasury.

There has never been a report made in detail of the expenditures of this board; and while such a report may not be required by law, still, in my opinion, it would be a proper thing for them to make. While, on the contrary, when some members of this board have been approached in relation to business of the board, the answer has been that the books and action of the board were not open to public inspection. I am also an advocate for giving home teachers a preference over foreign when qualified, and it seems to me that among the graduates of our high school a larger percentage might be found qualified to teach. Reform is necessary in this respect also.

DEALERS AND JOBBERS IN

Fire Crackers, Torpedoes, Chinese Lanterns,
Flags, Campaign Goods and Fireworks.

We call the attention of dealers to the latest novelty, the

FIRE CRACKER MORTAR!

The most ingenious and amusing toy in existence. A fire cracker will shoot the
ball 100 feet in the air and is caught by the lively boy in its descent. No danger.
It will have a big sale.
Dealers should send for our price list offering "special inducements."
